

CANADIANS TAKE FRIEDMANN CURE

Thirty Patients Inoculated at Royal Edward Institute in Montreal.

MAKES GOOD IMPRESSION

Throngs Gather Around Hospital Clamoring for Treatment by New Method.

Montreal, March 12.—Dr. Friedrich Friedmann left here tonight for Ottawa, after having spent a highly successful day, according to those who witnessed the clinical demonstration of his treatment for the cure of tuberculosis. Thirty patients, including men, women, and children, received the injections of the serum in the presence of Dr. Friedmann at the Royal Edward Institute for Tuberculosis. Newspaper men and the public were excluded.

One of the patients was Marie Hamour, a sixty-year-old girl, who came here from her home in the Canadian north, 200 miles north of here, to receive the treatment. Both the father and the mother of the girl died, victims of the white plague. The marks of the disease showed plainly on the girl's features, and her appeal was so pathetic that Dr. Friedmann was touched. He carefully examined the girl, and although it was evident that she was in the advanced stages of the disease, he readily agreed to treat her among the first patients.

Through Surrounds Hospital.

While the clinic was being held a throng of sufferers, many of whom had come long distances, surged about the hospital, appealing in vain for admission. All of these were refused by the hospital authorities, but to each was given medicine and such treatment as was possible by the hospital doctors before being finally turned away.

Seventy cases had been selected by the hospital and Dr. Friedmann was allowed to pick from these. He administered the serum himself and was highly praised by the doctors present for the successful and rapid manner in which he worked. The audience which viewed the German savant's demonstration was more friendly than any he has yet appeared before. Many came from Germany. From his movements it was apparent that Dr. Friedmann felt this and appreciated it.

Much regret was expressed by the attending physicians here over the treatment accorded by the hospital in New York, and he was invited to remain here and demonstrate his cure for as long as he wished.

Butter contains water and salt

Cottolene

is 100% shortening

When you buy butter for cooking purposes, you are paying for 25% water and salt; you get but 75% real shortening value. In Cottolene you get 100% shortening.

Cottolene costs much less than good butter—and gives just as good results in shortening and frying. Cottolene is as cheap or cheaper than lard—gives better results—and is absolutely healthful, which is more than can be said of lard.

Cottolene is economical, because one-third less is required than of either butter or lard.

THE N. K. FAIRBANK COMPANY

30 PAID IN SAVINGS DEPARTMENT

THE location of this institution at the corner of 15th and H Streets, and the prompt, courteous attention which it is never too busy to extend, make it particularly convenient and pleasant as a banking home for people in all parts of the city. Checking accounts are received, drawing 2 per cent interest, and 3 per cent is paid on savings.

GARRISON AGAINST FILIPINO FREEDOM

Secretary of War Is Not an Ardent Advocate of Independence at This Time.

THE PORTO RICAN POLICY

Secretary Garrison yesterday discussed with President Wilson the question of what is to be the administration policy toward the Philippines. Secretary Garrison declared, with emphasis, that the matter of independence was not under discussion, but only questions relating to the present government of the islands. Matters of personal policy were not touched upon in the conference.

Whatever the policy of the new Congress may be with regard to the Philippines, it is quite apparent that Secretary of War Garrison is not an ardent advocate of immediate independence for the islands. He declared yesterday that his view of the Democratic position on the Philippines is that they are to be free only when they are ready for independence and when they can be given absolute self-government in a proper way. He gave no indication that he believes the proper time has yet arrived for making the Philippines independent.

Another policy of the Taft administration was reaffirmed when the Secretary announced that it was the wish of President Wilson that the Porto Ricans have "home rule" as far as possible with respect to local affairs, such as postmaster, police, and other local matters. This has been the consistent policy of the Republican government of Porto Rico since the civil government of Porto Rico was organized. It was the policy of the Taft administration to extend the principle of local self-government just as far as consistent with efficiency, and the number of officers to be filled by Americans from the States has been annually reduced.

DR. ANDERSON RETURNS AND BEGINS TO TAKE TESTS OF FRIEDMANN CULTURES

Official tests of the Friedmann cultures for the cure of tuberculosis were begun at the government hygienic laboratory yesterday by Surgeon John P. Anderson, of the Public Health Service. Dr. Anderson, who returned from New York, where he received the cultures yesterday from Dr. Friedmann, just prior to the latter's departure for Montreal, where he is treating tuberculosis patients. The government medical authorities apparently were disappointed that Dr. Friedmann did not give Dr. Anderson the formula for the cultures, as they had previously agreed to do in correspondence between the German physician and Surgeon General Blue.

Dr. Anderson changed his plans and returned at once to Washington in order to begin his analysis of the cultures and will go back to New York upon the arrival there of Dr. Friedmann from Montreal, the latter part of the week. Dr. Anderson yesterday agreed to give him the formula and instructions for developing the serum, administering it and the treatment of patients after it has been administered. He will also observe the treatment of the patients on patients to whom it has already been administered.

COLORED FOLKS ASK SLICE OF MELON

Members of National Association Want Marshall or Peyton for Lewis' Job.

Claiming that they delivered 20 per cent of the colored vote of the United States to the Democratic ticket on election day, officials of the National Colored Democratic League yesterday announced that they will ask for recognition in the parading out of Federal patronage by the department heads here.

Forty officers filed by Presidential appointment were held by colored Republicans under the Taft administration. Among the number are an assistant to the Attorney General, Minister to Haiti, Minister to Liberia, Registrar of the Treasury, Deputy Collector of Customs for the Port of Georgetown, and other minor positions in the diplomatic service. Bishop Alexander Walters, of New York, president of the league, and James A. Rose, of New York, vice president, who called on Secretary Tumulty at the White House yesterday, declared that each of these offices should be filled by a colored Democrat.

They told Tumulty that the first positions for which they would make a fight is that of William H. Lewis, who yesterday resigned as assistant to the Attorney General. Tumulty gave them a letter of introduction to Attorney General McKeen, and told them to take their case to him. They proposed N. B. Marshall of Louisiana, President of the District of Columbia, for this position. Also, they handed to Secretary Tumulty a complete slate for the forty offices now filled by colored men.

MR. WINTHROP PAYS RESPECTS TO PRESIDENT

Beckman Winthrop, of New York, Assistant Secretary of the Navy under President Taft, called at the White House yesterday to say "How do you do" and "Good-bye," as he said, to President Wilson, whom he had never met. Winthrop will be succeeded by Franklin D. Roosevelt, also of New York. Mr. Roosevelt, a cousin of the former President, will hold the same position in which Theodore Roosevelt first became prominent through the Spanish-American war.

SENATOR SMITH WANTS ARIZONA JUDGE NAMED

Senator Mark Smith of Arizona also called at the White House yesterday to urge the appointment of W. H. Sawtelle, of Arizona, as District Judge in place of Judge Robert E. Sloan, nominated by President Taft but never confirmed. The President promised to consider the matter.

Rockefellers Sall for Panama. New York, March 12.—Mr. and Mrs. John D. Rockefeller, Jr., sailed today on the steamship Victoria for Panama. Mr. Rockefeller said that he was anxious to see the canal before the water was turned in. He declined to discuss the anti-vice crusade in which he is interested.

SENATE'S BRIEF SESSION.

The Senate held a brief session yesterday, closing with an executive session, in which all pending nominations heretofore sent in by President Wilson were reported favorably, with the exception of that of Dr. Charles P. Neill to be Commissioner of Labor. There were no confirmations, the nominations that were reported being ordered to lay over for an executive session. The Senate adjourned to meet Thursday at 2 o'clock.

WILL AID SECRETARY DANIELS

House leaders, however, are expected to make his views known before long.

FRANKLIN D. ROOSEVELT.

State Senator from Dutchess County, N. Y., has accepted the appointment tendered him to the post of Assistant Secretary of the Navy, to succeed Beckman Winthrop, who was Secretary of Meyers' aid, Secretary Daniels and President Wilson are said to have decided on Mr. Roosevelt for the place without any argument.

SENATE COMMITTEE IS READY TO REPORT

Caucus Will Be Called to Ratify the Selection of New Chairmen.

SIMMONS TO HOLD FINANCE

Senator F. M. Simmons of North Carolina will probably continue at the head of the Committee on Finance and direct the work of shaping tariff legislation, so far as the Senate is concerned. The Progressive influence, so-called, among the Democratic majority is likely to make itself felt in the make-up of the membership of the majority. A motion was made in the secret meeting of the committee on Committees yesterday morning to make Senator William J. Stone of Missouri chairman of the Finance Committee, and assign Senator Simmons to the chairmanship of the new committee on banking. But, after some discussion, this proposal was rejected, as were several other plans looking to breaking away from the seniority rule.

It was stated yesterday by Democratic Senators that more progress had been made by the committee in its work of assigning Democratic Senators to committees than in all the time the committee has been at work heretofore. So satisfactory was the progress made that arrangements were made calling a caucus to take place on Finance. A motion was made in the secret meeting of the committee on Committees yesterday morning to make Senator William J. Stone of Missouri chairman of the Finance Committee, and assign Senator Simmons to the chairmanship of the new committee on banking. But, after some discussion, this proposal was rejected, as were several other plans looking to breaking away from the seniority rule.

It was learned yesterday that a protest was uttered in the Democratic Committee on Committees by some of the members against the assignment of Senator Stone to the Finance Committee. The members of the committee who were making assignments to confer on themselves desirable chairmanships. The protests against this programme reached in the last year of the Taft administration. The former chairman of the Ways and Means Committee prods the Democrats for extravagances at the recent session of the Senate. "No new law," he said, "is being passed by the Senate and such abundant revenues as this one," said Mr. Payne. "If the Democratic party can form as wise and productive revenue measures as those now upon the statute books, the administration does not face any difficult financial problem for the next fiscal year. The Democracy will have to thank the present revenue laws for their reckless appropriations do not now threaten to bankrupt the Treasury."

Of course, the present revenue laws, under which this splendid income has been received, will continue in operation at least until June 30. And should business continue as prosperous and imports at the same ratio, and internal revenue receipts, including the tax on liquor, and other profits, as large, it is difficult to see why this condition will not continue until June 30.

Representative Payne wants the country to be put on a new basis. He took hold of the government with the country prospering and treasury conditions excellent. He is hopeful that the Democrats will not pass laws that will disturb this satisfactory state of affairs.

KIDNAPED IN DAYLIGHT.

Cleveland Girl Dragged from Store by Armed Man.

Cleveland, Ohio, March 12.—Police today investigated the kidnapping in a taxicab of twenty-two-year-old Helen Meister from the store of C. H. Stevens, Prospect Avenue, where she was employed. The girl was dragged into the taxi by a man, who threatened the proprietor with a revolver. The girl cowered and trembled as the man forced his way into the store in broad daylight, and pleaded with him, but he compelled her to enter the machine, and immediately dashed away.

The girl, who had worked at the store for two weeks, was pretty, refined, well educated, and well clad.

Probe Pullman Company.

Chicago, March 12.—Investigation of a complaint that the Pullman Company had jeopardized public health by neglect in handling a smallpox case, was begun by United States Attorney Wilburton today. It was alleged a woman on a crowded Pullman car from the West had a well-developed case of smallpox. The other passengers were with the woman during the night and a half day, and the patient and passengers used the same toilet accommodations.

Caruso's Threatener Held Guilty.

New York, March 12.—The jury in the case of Antonio Chincotto, indicted for attempting to extort \$15,000 from Enrico Caruso, the famous tenor, by means of two threatening letters in March, 1912, today brought in a verdict of guilty, and the case was remanded to Raymond Street jail for sentence next Monday. The verdict was returned before Judge Fawcett in the County Court, Brooklyn. Antonio Chincotto is now in Sing Sing for the same crime.

Takes Life Near School.

Baltimore, Md., March 12.—John Darby, of Hebron, Md., this afternoon, just as the public school in that place was being dismissed, took a shotgun from his home and went down in front of the school and shot himself. Many pupils saw him and for a time there was a near-panic among them. Darby had been arrested on a serious charge and had been released on bail.

WILSON WORRIES ON GIVING PLUMS

Continued from Page One.

House leaders, however, are expected to make his views known before long. Two factions in the Democratic majority of the ways and means committee anxiously are seeking enlightenment as to the extent of tariff slashing Mr. Wilson favors. Oscar W. Underwood, the chairman and majority leader of the House, does not dominate the committee on this question. Mr. Wilson's higher tariff law than a majority of his Democratic colleagues on the committee.

Representative Francis Burton Harrison, a "free trader" at heart, leads the majority of the majority on the committee, and both sides are awaiting an expression from the President of his views before finally framing the bills.

Oriental Rugs

WHO is not interested in them? Who has ever bought a genuine Oriental Rug that they did not eventually do away with carpets and replace them with Orientals? Are they not beautiful, durable, convenient, and sanitary?

SURELY they are much more economical than made of manufactured carpets. If you did not know this, see if figures lie.

FOR the parlor or living room a 9x12 velvet carpet, that will last at most five years, will cost you \$60.

I WILL furnish the same room with three ORIENTAL RUGS for \$100 that will not only last a lifetime, but will become a useful heirloom in your family for years to come. They will not fade by the light from windows and not only that, they will wash as often as you choose. They will beautify your home.

IT costs too much money to talk here in this space, but if you come down to-day to my store you will see what we have. I must tell you, though, of 8x5 size KURDISTANS, woven by YAROOK—Kurds that are my favorite of all the modern weaves—good colors, good material, good workmanship, and honest. They are \$55 your choice, and are included in the above \$100 set. Why not see them?

I Control for Young's Hats

Here the . . .

It isn't an ordinary agency. To have it means to have the best popular-priced Hat in America. There's no argument about that. Everybody agrees there's nothing quite so good as a Young's Hat—and no shapes quite so smart and effective as Young's shapes.

We're sure of this—that once you wear a Young's you'll be hard to suit with any other Hat.

Denied Alimony.

Mrs. Adelaide McAllister's Application Denied by Court.

New York, March 12.—The application of Mrs. Adelaide McAllister for alimony, pending the trial of her separation suit from Walter B. McAllister, was denied today by Supreme Court Justice Lehman. Mrs. McAllister is the daughter of Capt. William P. Breunard, U. S. N., retired, who was in command of the President's yacht under Roosevelt.

Mrs. McAllister charges her husband with "crucifix," although she is still living in the same house with him. She declares that he is fond of Miss Marie Eiden. McAllister denies that he wrote letters to Miss Eiden and received letters from her. He has started a suit to recover \$20,000 damages from Frederick Fischer, a broker, for alleged alienation of Mrs. McAllister's affections.

Indian Weds Cincinnati Girl.

Cincinnati, March 12.—Eagle Eye, a full-blooded Sioux Indian, who came to this city with "White Eagle," the father of Luther McCarty, heavy-weight champion pugilist, was married to Miss Augusta Huber, a pretty Cincinnati girl, today. The wedding was the climax of a romance which had its inception during a performance of the Indian at a local moving picture show, where he performed in a specialty act. A. P. McCarty, the prize fighter from here, was best man. The bridegroom is twenty-two years old and the bride nineteen.

Millionaire Fixes Alimony.

Los Angeles, March 12.—Owen McCann, Pittsburgh millionaire, who was ordered several weeks ago to file a bond of \$25,000 in Judge Monroe's branch of the Superior Court to insure the payment of \$12,000 to his former wife for alimony, completed the terms of the security today. By its provisions he will pay Mrs. McCann \$12,000 a year until 1922.

Wisconsin Frog Safe.

Madison, Wis., March 12.—The frog is to be protected. The Assembly unanimously passed the Spoor bill, providing for a closed season for frogs from November 1 to June 1, forbidding hunting in that time. Spoor made an eloquent plea. "The Frogs of the State are being barbed," he said. "I have seen men cut live frogs in two, tossing the hind quarters into a sack and throwing the still struggling fore quarters into the water. Last week I saw men take twenty-two sacks of frogs, which they found imbedded in ice."

Makes New Altitude Record.

Paris, March 12.—A new world's record for altitude was
